Sale & Open Day Information

Both the Open Day and Bull Sale will be held at the
undercover selling complex at

Sugarloaf Creek home to Sugarloaf Angus

364 Sugarloaf Rd Dungog

Directions to the property & selling complex are found on the inside back cover.

OPEN DAY – Sat 5th July 2025

Sale bulls will be on display from 10.30am - 3.30pm.

SALE DAY – Sat 26th July 2025

On the day of the sale inspection of the bulls are welcome from 10:30am and the auction is scheduled to start at 1pm.

SALE DAY / OPEN DAY SAFETY DISCLAIMER

The owners, employees and representatives of Sugarloaf Angus and Alpine Charolais accept no liability for any accidents that may occur. Although such occurrences are rare, any persons attending the Sugarloaf Angus sale or Open Day do so at their own risk.

All care is taken to ensure livestock pose minimum threat to us and our clients. However we cannot predict nor guarantee their behaviour. Sale Day and Open Day will place stress on the cattle and expose them to situations out of their normal routine. They are not accustomed to crowds of people and the different noises they will experience on the day. Please take this into consideration when moving around the pens.

Do not enter the pens unless you need to. Visitors enter the pen at their own risk. Children under 16 years are not permitted to enter the pens. We ask that you do not put pressure on bulls in the pens. If you would like assistance there will be a representative placed at each pen.

Sale Details

HOW TO GET THERE

Sugarloaf Angus selling complex is 6.5km out of Dungog . See mud map back page for directions.

THE SALE

The sale will be by open cry auction in consecutive lots. The responsibility of the livestock passes to the purchaser at the fall of the auctioneers hammer.

REGISTRATION

The selling agents will be using the card registration system so please allow yourself time before the sale to register and nominate your PIC number.

REBATE

The vendor will provide a 2% rebate to outside agents introducing buyers in writing 24 hours prior to sale and settling on their behalf within 7 days.

GST

All lots are sold GST exclusive at the fall of the hammer and 10% will be added to the invoice.

INSURANCE

It will be the buyers responsibility to arrange insurance if needed for their purchasers.

BULL GUARANTEE

The vendor warrants that bulls are fertile and capable of natural service for 6 months from date of sale (Warranty Period). The vendor will issue a credit equivalent to the purchase price of the original bull that you can use at a future sale if infertile or incapable of natural service. A statutory declaration from the purchaser and a veterinary report must be lodged before the warranty period has expired stating the bull is defective and has not suffered illness or injury in the warranty period which could have affected his ability to breed.

The vendor has no liability (including liability in negligence) to any person for any loss and damage consequential or otherwise suffered or incurred by that person arising from the sale of the livestock to the purchaser.

ADDITIONAL INFORMATION

A supplementary sheet will be available sale day with weights on sale bulls and information on commercial females.

CATERING

Catering will be available on Sale Day with all proceeds going to the Dungog A & H Ladies Auxiliary.

Taking Delivery - Please Read

It is very traumatic for a bull to leave his mates, home ground and travel on a truck (which our bulls have never been on) to a new environment. To make it a little easier PLEASE have some cattle (a few steers or pregnant cows) in the yards ready for his arrival and throw him a bit of hay and let him get used to you and his new surrounds before letting him out.

Our bulls are handled with horses or on foot – they are not used to motorbikes, quads or dogs – so the first time you move them do so with the company of a few other cattle that are used to your methods.

When you go to look at your new bull on a motorbike/quad don't crowd him, take a biscuit of hay with you and he will soon get used to you and his new ways of being handled.

FREE FREIGHT on bulls to major centres within 200kms of Sugarloaf Angus selling complex will be provided by the vendors as soon as possible following the sale.

FREE FREIGHT to Condamine for multiple Queensland purchases.

Herd Health

All bulls have been fully vaccinated for 7 in 1, Vibrio & 3day sickness and tested free of pesti-virus. Their 7 in 1 & vibrio boosters are due May 2026 & 3 day booster due December 2025. All bulls have been fertility tested and blooded ready for tick areas.

Angus Australia Disclaimer and Privacy Information

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

Buyers option to opt out of disclosing personal information to Angus Australia

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents _____

from member _____ (name) do not consent to Angus Australia using my name address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Authorised Name: _____ Signature: _____

Date: _____

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350

Traits Observed: BWT, Genomics

A son of one of our most exciting sires, Alpine Rockstar R3. Rockstar was a standout from the day he was born and boasted a whopping 399kg weight at 200 days. Unique is a free-moving sire with a proven pedigree and would make an impact in a range of commercial enterprises.

This bull really ticks the boxes – homozygous poll and red factor. Another Quinton son that has plenty of carcase.

Sire of Lot 54 and 57

4 Ways Quinton Q58 is a rare blend of homozygous poll, big EMA, red factor and heifer mating suitability. When purchased in 2021 as a 20-month-old for \$32,500 from the 4 Ways bull sale, Quinton boasted a 151cm EMA, demonstrating the power of this moderate framed stud sire in the making. A son of the then record breaking Moongool Lunar Rise, Quinton highlights the great Silverstream Evolution on both sides of his pedigree. Q58's progeny are stamped with his square, stout structure, perfect feet, moderate maturity pattern, bone & clean polled heads.

Sire of Lot 56

Rockstar R3 was born a sire. This kept showing from an early age, weighing in at a whopping 399kg at 200 days on grass in an average season. Packed with power and oozing softness in coat and skin type, Rockstar also boasts impressive bone and outstanding carcase traits. He is broad from his muzzle right back to his pins, just like his sire Silverstream Memphis. The consistency in type of Rockstar is proven by the consistency of not only his progeny but the full embryo siblings to him bred since. Whether females or sires they are always packed with the same quality and performance.

Sire of Lots 52 and 53

Quicksilver has been a standout from a very early age and with his pedigree you can see why! Sired by our own Alpine Beckham 4 E7E (Palgrove Beckham B417E x Alpine Supermodel C2E) and out of powerhouse cow Blawearly Emogene E9E (EC No Doubt) means Quicksilver has softness, grunt, big-volume udders and longevity from every part of his genetics. From his broad muzzle down to his perfect feet, to us this bull offers the complete package with stud and commercially proven genetics backed up by phenotype. With consistently exceptional progeny, Quicksilver features in our herd heavily as a sire over both stud heifers and cows as well as in our ET programs.

Sire of Lot 55

We first saw Memphis, a Silverstream Evolution son, at 15 months old on our first trip to New Zealand. Memphis really caught our attention due to his exceptional growth, bone, broad muzzle, soft skin, and perfect feet and structure. Fast forward to now and Memphis has made a huge impact on our herd and has sons and daughters that are producing outstanding stud and commercial progeny that are the top of every drop.

— WELCOME —

It is with great pleasure that we welcome you to our annual Charolais bull offering at the 2025 Sugarloaf Angus on property bull sale.

History

This year is an exciting one, marking 21 years since Jane started the stud in the hills of Sugarloaf at 14 years old, with the support and guidance from her father, Alex Tickle.

As sixth generation on the family property at Sugarloaf, cattle is in Jane's blood, with father Alex breeding stud and commercial Herefords for many years, and in more recent times Angus.

2004 was a special year as Jane and her father secured the very first Charolais cow – Cobrabald Royal, with heifer calf at foot Royal 6, in addition to heifer Palgrove Appeal 16. These females went on to be instrumental in the stud, with Royal 6 having her own very special heifer calf in 2007 – Alpine Supermodel C2E. Supermodel would go on to be the heart of the Alpine herd.

The stud continued to strengthen, and as a teen Jane had the opportunity to show her cattle at many shows across NSW, and was fortunate enough to experience considerable success.

2009 saw the purchase of high seller Palgrove Beckham B417E, a bull that has had tremendous influence on the type of cattle we breed. Quality females have been retained and an outstanding son (E7E) and grandson (Q11E) have been used both in the stud and commercially, with impressive results.

In 2011 while away at uni, Jane met Justin, a fresh faced young stock and station agent, also from generations of stud and commercial cattle breeding. Justin ran a small herd of 100 Brahman and 80 Santa cross females in partnership with his family, using Charolais bulls including E7E over these females. Charolais were instrumental in building the Sanderson family's herd from that point onwards – now joining over 600 females to Alpine Charolais sires at our property at Gwabegar, lease country at Warren and various agistment properties.

Justin, a director of their agency, sees time and time again the commercial capabilities of the Charolais breed in all conditions throughout Australia, with Alpine bulls breeding quality, eye catching cattle with extra weight.

With a combined passion for the breed, Jane and Justin have built the stud herd together to 70 Alpine females on their home property between Dubbo and Collie, with the additional purchase of the Rockwood Charolais herd from Holbrook in late 2022. These cows are run on their lease property towards Narromine, culminating to a joining of 140 stud Charolais females.

The Bulls

Our bulls on offer in the 2025 Sugarloaf Angus Bull Sale represent a selection of six polled Charolais sires from our group of sale bulls this year. Two of these bulls have been implanted as embryos and reared at Sugarloaf on recipient cows, in order to gain immunity to Theileria. Thank you to Jane's father, Alex for the use of these cows.

This year's bulls were raised in the hills at Sugarloaf or at home, weaned to grass country at our home property, then taken out to our lease country near Narromine. For the past three months the bulls been on a ration in preparation for the sale.

All bulls have been semen tested for morphology and motility, treated with 7-in-1 and tick fever vaccinations (to suit Northern Queensland), drenched, conditioned and are ready to work.

A supplementary sheet will be available at the Open Day on 5 July with the additional data of the bull's weights and scans.

We are offering free or subsidised delivery to most areas, please give us a call to see how we can help. Additionally, in line with the Sugarloaf guarantee, our bulls have a warranty period of 6 months from date of sale.

Finally, we would like to extend a big thank you to Jane's uncle, Jim for allowing us to be part of his sale.

We wish you all the best and thank you for your support.

Justin & Jane

Sale Day and Open Day safety disclaimer

The owners, employees and representatives of Alpine Charolais and Sugarloaf Angus accept no liability for any accidents that may occur. Although such occurrences are rare, any persons attending the Sugarloaf Angus sale or Open Day do so at their own risk. All care is taken to ensure livestock pose minimum threat to us and our clients. However we cannot predict nor guarantee their behaviour. Sale Day and Open Day will place stress on the cattle and expose them to situations out of their normal routine. They are not accustomed to crowds of people and the different noises they will experience on the day. Please take this into consideration when moving around the pens. Do not enter the pens unless you need to. Visitors enter the pens at their own risk. Children under 16 years are not permitted to enter the pens. We ask that you do not put pressure on bulls in the pens. If you would like assistance there will be a representative placed at each pen.
